Weekend Trucker — Members Mod Pack · ETS2 & ATS

Welcome! This folder is my exact ETS2 & ATS setup, so you can build the same one or tweak it how you like. Two files needed:

- 📦 **Members Mods list** — every mod I run, grouped by type, with a direct download link for each.
- 🧭 **ETS2 Or ATS Load Order** — the exact order to load them, top to bottom. **This is the part that stops crashes.**

How to use it

- **1.** Open the **Mods list** and download the mods you want, each link goes straight to that mod's page.
- **2.** Open the **Load Order** and set your in game mod manager to that exact order, the mod at the **top** of the list goes at the **top** of your Active Mods.
- **3.** Load in game and drive. That's it.

> 💡 Hate ordering mods by hand? The app **Truck Mod Doctor** scans your mods and sets the whole load order for you automatically, see truckmoddoctor.com

Before you start

- You'll want all **10 map DLCs** for the full map combo: Going East!, Scandinavia, Vive la France!, Italia, Beyond the Baltic Sea, Road to the Black Sea, Iberia, West Balkans, Greece, Nordic Horizons.
- A few mods are **paid** (marked **£**). Everything else is free.
- **Plugins** (Snowy Moon, Cruise Control, Smoke) go in `bin\win_x64`, **not** the mod folder — see the ETS2 Load Order file.

Stay safe downloading

Nasty people do naughty things! so please consider using an **AD BLOCKER** such as uBlock Origin Lite a Google extension when following links, it is not perfect, but it helps. I cannot keep on top of all the links in this document all the time, if you come across a suspicious link then please drop me an e-mail so I can get on it! weekendtruckerofficial@gmail.com Mods get updated overtime or as soon as I change the load order updates are added. Check you have the latest version otherwise this load order may not work. Either way have fun!

One final important note, Thank you for supporting the Weekend Trucker channel, every new member that joins is taking us closer to buying new mods to test. Software to try out, Hardware to demolish and report back to you via the Weekend Trucker YouTube channel. Thanks for making this community stronger.
